

Karve Institute of Social Service

Code of Ethics Policy

The college's Code of Ethics Policy focuses on fostering human values and professional ethics in the academic environment. The policy aims to create a nurturing and inclusive learning space for all students by adhering to the following principles:

1. Exceptional Care for Students:

Teachers must motivate and guide students, acknowledging them as role models.

2. Fairness in Assessment:

Teachers must exercise absolute fairness when assigning marks or grades during internal and external assessments.

3. Respect for Student Opinions:

The rights and dignity of students in expressing their opinions must be respected by all faculty members.

4. Recognition of Individual Capabilities:

Teachers must recognize the varying levels of aptitude and abilities in each student, striving to meet individual needs and aspirations to the fullest extent possible.

5. Emphasis on Human Values:

Teachers are encouraged to nurture students' understanding of human values and ethics, helping shape their psyche through the importance of these values in everyday life.
