

Karve Institute of Social Service

Extension Activities Policy

To sensitize students about social issues and instil a sense of social responsibility for their holistic development, extension activities play a vital role. The college regards these activities as a core part of its mission, ensuring that they contribute to societal well-being and student growth.

1. Design and Focus:

All extension activities conducted by the college through must be critically designed to foster social change, community upliftment, and the holistic development of students.

2. Collaboration with External Entities:

All Specializations are encouraged to undertake extension activities independently or in collaboration with government or non-government organizations in various fields, including need-based training programs and consultancy.

3. Targeting Community and Educational Enrichment:

Community development activities and educational enrichment for children are priorities for extension activities, implemented wherever feasible.

4. Hands-On Experience:

Extension and outreach activities will focus on providing hands-on experience in specific areas to help students apply their knowledge in real-world contexts.

5. Talent and Skill Development:

Extension activities will serve as a medium for students to display their talents and utilize their skills for societal betterment.

6. National Integration and Communal Harmony:

The college will also focus on fostering national integration and communal harmony by involving government agencies and local bodies in extension activities wherever possible.

7. Industry and Corporate Interface:

Extension activities will serve as a direct interface between the college and sectors such as corporate industries, public sector undertakings, and social welfare organizations, enhancing engagement with the broader community.
