

## Karve Institute of Social Service, Pune

### **\*Research Policy**

#### **Background & Rationale**

Karve Institute of Social Service, Pune is committed to fostering a culture of research and knowledge creation within the field of social work. The Institute recognizes research as a vital tool for academic excellence, social impact, policy advocacy, and the empowerment of marginalized communities. The Research Policy aims to encourage faculty, students, and research scholars to engage in ethical, rigorous, and socially relevant research activities.

#### **Objectives of the Research Policy**

1. To promote a research culture among faculty, students, and research scholars.
2. To provide guidelines and support for ethical research practices.
3. To ensure the integration of research with field practice, social policy, and community development.
4. To encourage collaboration with government bodies, NGOs, and corporate agencies for research and consultancy.
5. To provide a structured mechanism for the ethical clearance of research projects.
6. To facilitate capacity building and training in research methodology and data analysis.
